Outbreak of a new academic season. Academic fraternity has reached back in to ever blooming land of wisdom; with a rejuvenated energy, even in this scorching heat to water the plants in plenty in the garden of knowledge to keep it afresh always. To keep them always awake. Awake and step into the world of new hope. New dreams.

Revival from Covid-19 setbacks! Even though partial, we are optimistic. Optimistic to such an extent that we never lose.

A transition takes place. The higher educational institutes have to make up for the learning losses while honing new teaching styles. New research methodologies. We have to make up for innovative teaching-learning methods.

It's our divine mission to take up all these challenges with new vigour and enthusiasm.

The future is becoming more and more uncertain. The livelihood for the future generation is under threat. Theories of sustainable growth remains closed in books only as if cursed souls wanting to get freed. The bubbles of heavy talks on sustainability flying towards the horizons and burst away.

The pages wherein inclusive growth was written were torn and thrown to the freezing wind of man's insatiable greed.

But,

Our country blessed by the greatness of many leaders who taught us invaluable lessons of sacrifice, tolerance, love and brotherhood made us dream a world wherein everyone lives together, join hands freely and happily with mutual trust, support, harmony and brotherhood.

Therefore, let us join hands and sing with Rabindranath Tagore,

“Where the mind is without fear and the head held high; Where knowledge is free; Where the world has not been broken up into fragments by narrow domestic walls; Where words come out from the depth of truth; Where tireless striving stretches its arms towards perfection; Where the clear stream of reason has not lost its way into the dreary desert sand of dead habit; Where the mind is led forward by Thee into ever-widening thought and action; Into that heaven of freedom, my Father, let my country awake.”

So, my dear friends let us stand united for peace and harmony. . .

Let us hold our hands tight for truth, equality and brotherhood.

Let us be a part of a change. A revolutionary change.

Therefore, let us open our Mind. Let us strengthen our Will.
Let us generate Ideas. And unite them to the need. . . That is
what we call revolution.

Dr. K. J Thankachan
